Summary

Detail-oriented full-stack developer with a specialization in AI/ML and hands-on experience building and deploying robust web and mobile applications. Proficient in front-end technologies like React and React Native, and back-end development with Python and Java, including REST API integration and database management. Proven ability to translate user needs into functional, high-performance software solutions.

Education

K S Rangsam College Of Technology

B.E. in Computer Science (Artificial Intelligence & Machine Learning)

- CGPA: 8.1 / 10.0

Tiruchengode, Tamil Nadu

2022 – Expected 2026

St.John's Matriculation Higher Secondary School

Higher Secondary Certificate (HSC)

- Percentage: 71%

Salem, Tamil Nadu

2022

Projects

Own Store – Food Delivery App

Tech Stack: React Native, Supabase

- Built an Android food delivery application similar to Swiggy, enabling users to browse vendors, place orders, and track deliveries in real time.
- Integrated Supabase backend for authentication, database management, and real-time order synchronization.

Real-Time Sign Language Alphabet Recognizer

Tech Stack: Python, TensorFlow, Keras, OpenCV, MediaPipe

- Implemented a Convolutional Neural Network (CNN) to classify and translate American Sign Language (ASL) gestures from a live webcam feed with high accuracy.

Chatbot-Driven Resume Generator

Tech Stack: React, JavaScript

- Created a React-based web app that uses a chatbot interface to dynamically generate professional resumes from user input, offering multiple exportable templates.

Experience

AI Developer Intern – MetatronCube Software Solution (Remote)

Feb 2025 – Present

- Developed Python tools to visualize real-time LIDAR data and Insta360 imagery for 3D environment mapping.
- Engineered backend automation scripts and implemented features for 3D image transitions and data annotation.

Web Development Intern – Stack Queue Education

Jul 2024

- Developed and styled responsive front-end components for client websites using HTML, CSS, and JavaScript.
- Integrated REST APIs and connected to databases to build dynamic, data-driven web application features.

Technical Skills

Languages	Java, Python, React-native, React, JavaScript, HTML, CSS, SQL
Libraries & Frameworks	React, TensorFlow, OpenCV, NumPy, Pandas, Matplotlib, REST API
Databases	MySQL
Tools & Platforms	Git, Docker, Supabase, Figma, Blender, Power BI, Tableau, Kaggle, Hugging Face

Certifications

- Python for Data Science (NPTEL)
- Google Cybersecurity Professional Certification (Coursera)
- IoT Applications (Infosys Springboard)

Languages

English (Fluent), Tamil (Native), Hindi (Professional), Urdu (Professional)
